Subject: URGENT: Purchase and protection of threatened Sickie Point, Skaha Lake, Okanagan Valley, BC

Dear Minister Conroy:

I am writing to request both your Ministry's and BC government's financial support towards the purchase of the Skaha Lake foreshore marshes and riparian habitat that constitute Sickie Point.

This is the last piece of such land remaining on Skaha Lake and one of the few still left in the South Okanagan. At this time, the land is privately owned but in receivership. Our community has voiced strong disagreement regarding the development of the Point since the 1990s. We believe that this is the last opportunity to protect this important wildlife habitat and maintain the land and its natural features for our children and grandchildren, as well as supporting the preservation of its cultural significance for the Sylix First Nations.

Sickie Point has always been a wonderful little marshland where birds, beaver, and other animals cohabit together. Over the last 10 years, the land has been stripped of its richness as a natural landscape. My husband and I believe that it should be allowed to return to its natural state with greater opportunity for the nesting of birds both on land and in the marshes again.

To date, over 200 people have pledge almost \$300,000 towards the proposed purchasing of the land. Although this is long way from the approximately \$2.5 million asking price for the property, it does indicate the importance of this piece of land to the people in the South Okanagan. We need the help of your government to purchase the precious land before the opportunity disappears so that it may be restored to its former wildlife habitat.

I also request that there be an immediate stay on any development of Sickie Point under the Environment and Land Use Act, to protect this last example of a rare habitat before it is lost forever.

Sincerely,

Barbra Paterson

**Subject: URGENT:** Purchase and protection of threatened Sickle Point, Skaha Lake, Okanagan Valley, BC

Dear Minister Conroy:

I am writing to request both your Ministry's and BC government's financial support towards the purchase of the Skaha Lake foreshore marshes and riparian habitat that constitute Sickle Point.

This is the last piece of such land remaining on Skaha Lake and one of the few still left in the South Okanagan. At this time, the land is privately owned but in receivership. Our community has voiced strong disagreement regarding the development of the Point since the 1990s. We believe that this is the last opportunity to protect this important wildlife habitat and maintain the land and its natural features for our children and grandchildren, as well as supporting the preservation of its cultural significance for the Sylix First Nations.

Not only is Sickle Point one of the few remaining pieces of marshland in the Okanagan, but it is also located on the KVR which is used recreationally by hundreds of people throughout the year from all walks of life and from all over BC and elsewhere. At present this area is only for non-motorized traffic, however should Sickle Point be developed it would create much more traffic, reduce the value of the trail for recreation, and potentially become more dangerous. As a retired educator from Okanagan Falls Elementary, I regularly brought children on bicycle trips and hikes to look at the rock formation along the way, beaver dams, plant life, and the marshlands at Sickle Point. We have an amazing ecological opportunity along this public trail... it would be a terrible shame to lose that.

To date, over 200 people have pledge almost \$300,000 towards the proposed purchasing of the land. We need the help of your government to purchase the precious land before the opportunity disappears so that it may be restored to its former wildlife habitat.

I also request that there be an immediate stay on any development of Sickle Point under the Environment and Land Use Act, to protect this last example of a rare habitat before it is lost forever.

Sincerely,  
Sam Hancheroff
