Re: Naramata Diversion Flume Decommissioning

Dear Mr. Pendergraft,

I am writing in response to Karla Kozakevich's letter regarding the disposition of the Naramata Creek flume. A 2021 engineering assessment, completed by Hatch Engineering, concluded that a significant initial and ongoing financial investment is required to maintain the flume in satisfactory condition; the Ministry of Forests will not be assuming ownership and operation of the flume at this time.

Sincerely,

A handwritten signature in blue ink that reads "J Campbell".
