

# WATER SERVICE INTERRUPTION

## OKANAGAN FALLS

### IMPORTANT NOTICE:

Water service in your area will be shut off intermittently for valve servicing on the following date:

**DATE:** Wednesday, February 25, 2026

**TIME:** 9:00 am to 3:00 pm

### LOCATIONS:

- **Cedar St.** Addresses 960, 980, 5224, 5229, 1017, 1020, 1025, 1032, 1033, 1041
- **Pumphouse Rd.** Addresses 970 and 980 and **Hawthorne Pl.** 5445

In preparation for the water service shutdown, please ensure you have an adequate supply of water on hand for domestic use. **Due to this work, there may also be traffic flow interruptions. Please use caution and follow instructions on any on-site signage.**

Once service is restored, you may notice adverse water quality (high colour, suspended solids, and turbidity). If you experience dirty water, run your cold water taps only and/or garden hose until the water runs clear. Residents may also wish to isolate their in-home treatment systems until turbidity has decreased to normal levels. In addition, you should avoid laundering for a period of at least one day.

The RDOS understands the inconvenience this may cause and appreciates your patience. For further information, please contact RDOS Public Works at 250-490-4135.

For after-hours water emergencies, please call **RDOS Regional Dispatch** at 250-490-4141.
