RE: Marco and Agnieszka Pimental

1024 Old Main Road, Naramata, B.C.

Lot A, Plan KAP88202, D.L. 207 & 209, L.D. 54, S.D.Y.D.

We have been hired by Marco and Agi Pimental, to access the ability of the current septic system to handle the increase flow rate associated with their proposed vacation rental at the above listed property.

The existing system was unable to handle the increased flow rates.

Therefore, a new sewerage system has been designed for this property that will accommodate a vacation rental with a maximum occupancy of up to 10 persons. This system has been filed with the Interior Health Authority.

QCM is currently working on Installing this system. If you have any further question or concerns, please feel free to contact me.
