

### PERMIT TO CONSTRUCT A SEWERAGE HOLDING TANK

Pursuant to the Public Health Act, Sewerage System Regulation BC Reg. 326 / 2004 permission is granted to

(applicant) C. Jeffrey Oland, P.Eng.

to construct a sewerage holding tank as defined by the regulation on (legal description of property):

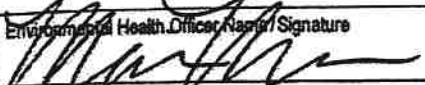

**Lot 22, Plan KAP3889, District Lot 211, Similkameen Division of Yale Land District  
(4545 Mill Road, Naramata)**

#### CONDITIONS

1. Permit may be cancelled if variations are made to the submitted plans and specifications without prior approval from Interior Health.
2. Permit is not renewable or transferable and expires one year from the date of issuance.
3. Significant changes to the estimated sewerage flow rates must be authorized by an Environmental Health Officer.
4. Permit does not cover electrical workings. Retain a qualified electrician to ensure electrical workings meet appropriate code.
5. The owner must follow the approved maintenance plan.
6. All sewerage must be disposed of at an approved waste management facility. Retain all disposal receipts.
7. A valid contract with a sewerage "pump and hauler" is required at all times the holding tank is being used.

#### CONDITIONS AS INDICATED

- The installation of the holding tank and related works shall be completed by an Authorized Person as defined in the B.C. Sewerage System Regulation.
- No increase in sewerage flow is permitted unless authorized by an Environmental Health Officer.
- This permit to construct was issued on the condition that it is used for no more than \_\_\_\_ years.
- Refer to additional permit conditions as indicated in supplementary letter.
- Other \_\_\_\_\_
