

RESPONSE SUMMARY

AMENDMENT BYLAW NO. XXXXX

- Approval Recommended for Reasons Outlined Below
- Interests Unaffected by Bylaw
- Approval Recommended Subject to Conditions Below
- Approval Not Recommended Due to Reasons Outlined Below

Thank you for opportunity to provide comments on the above named zoning amendment. It is my understanding the proposal is for a site specific amendment to allow campground use in the Rural Area zone. From a planning perspective Interior Health interests are unaffected by this proposal.

Please note Division 2 – Public Sanitary Facilities and Toilets of the BC Regulated Activities Regulation requires sanitary facilities be provided for public places, such as a campground. In order to provide water for domestic purposes the BC Drinking Water Protection Act and Regulation stipulates source water approval, and construction and operating permits are required. Similarly, the BC Sewerage System Regulation requires an Authorized Person under the Regulation design and construct sewerage systems. For more information please see IH Drinking Water webpage about Permits, Approvals and Plans and IH webpage about Onsite Sewerage Systems. It is advised that the water system approval process is initiated early in the planning process due to the amount of time it can take to work through the process.

If you have any questions or if additional resources are needed please feel free to contact us at hbe@interiorhealth.ca
