THE REGIONAL DISTRICT OF OKANAGAN-SIMILKAMEEN (RDOS)

REQUEST FOR PROPOSAL FOR

LAKESHORE WATER SYSTEM WATERMAIN CONDITION ASSESSMENT

RFP-RDOS-26-WATER SERVICES-108

The Regional District of Okanagan-Similkameen (RDOS) is seeking proposals from qualified Proponents to complete an investigation and condition assessment of the Lakeshore Water System force watermain. The pipeline to be investigated is approximately 530-meter length of 150mm (6 inches) diameter ductile iron pipe spanning from the Skaha Lake (Lakeshore Main Pumphouse) water intake to the intersection of Sunny Brook Drive-Eagle Ridge Road. The force watermain is the main feeder from the pumphouse (lake source) to the distribution lines. The successful proponent will need to conduct a condition assessment to identify any forming issues and gauge a potential timeline for rehabilitation before a catastrophic break occurs.

This will enable the RDOS to identify areas of the pipeline where the risk of failure is unacceptably high, anticipate the remedial cost and establish a remediation plan.

Respondents are encouraged to use innovation to provide a proposal that meets the needs of the Regional District and adds additional value to the project.
