

# NARAMATA WATER SYSTEM WATER QUALITY ADVISORY **RESCINDED**

September 1, 2021

The Regional District of Okanagan-Similkameen (RDOS) in consultation with Interior Health,(IHA) is rescinding the **Water Quality Advisory for Turbidity** effective immediately.

Turbidity levels have remained consistently below 1 NTU for the past week in accordance with the IHA’s Turbidity Index. RDOS Consultants are still reviewing the data from the numerous tests and samples they took over the past weeks and we expect a report next week. This information will be valuable to the RDOS moving forward with the *Source Water Protection Plan* for the Naramata water system.

For more information, please contact the Public Works Department at (250) 490-4106 or (250) 490-4135. Thank you for your cooperation.
