

NOTICE

NARAMATA WATER SYSTEM

TEMPORARY WATER SHUT DOWN FOR EMERGENCY REPAIR

WHEN:	Tuesday, October 11, 2022
TIME:	Immediately
AREAS AFFECTED:	All properties on 4th Street from Robinson Avenue to Ellis Street.

The Utilities Department crews are currently working on a water leak located at the intersection of 4th Street and Grimaldi Lane. In order to facilitate this repair, the RDOS has had to turn off the water on 4th Street from Robinson Avenue to Ellis Street.

The repair is currently under way. There is no estimated time of completion.

If possible, please let any of your neighbours in the area know that may not have email or internet. Once the work is completed, you may wish to run your cold water taps or outside hoses for a few minutes to flush any turbidity or cloudy water through - prior to drinking or using for laundry etc.

For after-hours water related emergencies, please call Regional Dispatch at 250-490-4141

Thank you for your patience.
