Summary: A Bylaw to amend the Electoral Area "D" Official Community Plan Bylaw No. 2603, 2013, from Low Density Residential to Parks, Recreation and Trails.

Attention: Lauri Feindell

RE: Request for a 60 (sixty) day extension

Thank you for the above application that was received on February 4, 2019. This letter is to inform you that due to current levels of internal capacity, we are unable to review your referral in your proposed timeline. With additional time, Penticton Indian Band will be able to ensure that an informed review process will occur. We are setting the new timeline to be 60 days from the existing timeline.

Most recently, the Supreme Court of Canada in the Tsilquot'in case confirmed that the province has been applying an incorrect and restrictive test to the determination of Aboriginal Title, and that Aboriginal Title includes the exclusive right of a First Nation to decide how that land is used and the right to benefit economically from those uses.

Please note that not receiving a response regarding a referral from Penticton Indian Band in the pre-application, current or post-application stage does not imply our support for the project.

I appreciate your co-operation.

Limlɛmt,
Natasha Slack

Greetings RDOS Planners,

Thank you for your referral regarding D2019.001-ZONE, involving the re-zoning of two parcels of land acquired by the RDOS so that they become park land.

605 Willow Street, Okanagan Falls, PID 029506433, LOT A DISTRICT LOT 337 SIMILKAMEEN DIVISION YALE DISTRICT PLAN EPP42481, has no known archaeological sites recorded on it.

176 Chadwell Place, Heritage Hills, PID 029841381, LOT 3 DISTRICT LOT 2710 SIMILKAMEEN DIVISION YALE DISTRICT PLAN EPP61041, has no known archaeological sites recorded on it.

Both properties are located in areas with high potential to contain unknown/unrecorded archaeological deposits. Archaeological sites (both recorded and unrecorded, disturbed and intact) are protected under the *Heritage Conservation Act* and must not be altered or damaged without a permit from the Archaeology Branch.

In the absence of a confirmed archaeological site, the Archaeology Branch cannot require the RDOS to conduct an archaeological study or obtain a permit prior to development. In this instance it is a risk management decision.

Prior to any land alterations (*e.g.*, addition to home, property redevelopment, extensive landscaping, service installation), the Archaeology Branch recommends contacting an eligible consulting archaeologist to review the proposed activities and, where warranted, conduct a walk over and/or detailed study of the properties to determine whether the work may impact protected archaeological materials.

An eligible consulting archaeologist is one who is able to hold a Provincial heritage permit that allows them to conduct archaeological studies. Ask an archaeologist if he or she can hold a permit, and contact the Archaeology Branch (250-953-3334) to verify an archaeologist's eligibility. Consulting archaeologists can be contacted through the BC Association of Professional Archaeologists (www.bcapa.ca) or through local directories.

If the archaeologist determines that development activities will not impact any archaeological deposits, then a permit is not required.

If any land-altering development is planned and proponents choose not to contact an archaeologist prior to development, owners and operators should be notified that if an archaeological site is encountered during development, activities **must** be halted and the Archaeology Branch contacted at 250-953-3334 for direction. If an archaeological site is encountered during development and the appropriate permits are not in place, proponents will be in contravention of the *Heritage Conservation Act* and likely experience development delays while the appropriate permits are obtained.

Please review the screenshots of the properties below (outlined in yellow). The brown colouration in the screenshots is the high potential for unknown/unrecorded archaeological deposits.

Please let me know if you have any questions regarding this information.

Kind regards,

Diana

Penticton, BC V2A 5J9

Attention: Christopher Garrish,

We are in receipt of the above referral. This proposed activity is within the Osoyoos Indian Bands Area of Interest within the Okanagan Nation's Territory, and the lands and resources are subject to our unextinguished Aboriginal Title and Rights.

The Supreme Court of Canada in the *Tsilhqot'in* case has confirmed that the province and Canada have been applying an incorrect and impoverished view of Aboriginal Title, and that aboriginal Title includes the exclusive right to indigenous people to manage the land and resources as well as the right to benefit economically from the land and resources. The Court therefore concluded that when the crown allocates resources on Aboriginal title lands without the indigenous peoples consent, it commits a serious infringement of constitutionally protected rights that will be difficult to justify.

The Osoyoos Indian Band has specific referral processing requirements for both government and proponents, which are integral to the exercise of our management right and to ensuring that the Crown can meet its duty to consult and accommodate our rights, including our Aboriginal title and management right. According to this policy, proponents are required to pay a \$500.00 processing fee for each referral. This fee must be paid within 30 days. Please make the cheque payable to the Osoyoos Indian Band re: RTS invoice: 5100-77-682. Proper consultation and consideration of potential impacts cannot occur without the appropriate resources therefore it is only with payment that proper consultation can begin and the proposed activity/development can be reviewed.

Upon receipt of the processing fee, we will commence our review. You may then expect to receive a letter from us notifying you of the results of our review of potential impacts of the project within 30 to 90 days.

If the proposed activity requires a more in-depth review, the Osoyoos Indian Band will notify you and all parties will negotiate a Memorandum of Agreement regarding a process for review of the proposed activity.

Regional District of Okanagan-Similkameen
February-27-19
Page 2

Please note that our participation in the referral and consultation process does not define or amend the Osoyoos Indian Band's Aboriginal Rights and Title, or limit any priorities afforded to Aboriginal Rights and Title, nor does it limit the positions that we may take in future negotiations or court actions.

If you require further information or clarification, please do not hesitate to contact me.

Re: OCP and Zoning Bylaw Amendment for Electoral Area "D" OPCP Bylaw No. 2603, 2013, and Zoning Bylaw No. 2455, 2008, located at 605 Willow Street, OK Falls and 176 Chadwell Place, Heritage Hills

The Ecosystems Section of the Ministry of Forests, Lands, Natural Resource Operations & Rural Development has reviewed the above noted referral. We understand that the application is for zoning amendment of two parcels to reflect their new use for Parks and Recreation (PR) purposes.

According to our records, the proposed development area at 605 Willow Street, OK Falls contains the following known values:

- Critical Habitat for Federally-listed Species at Risk:
 - Short-rayed Aster (*Symphytotrichum frondosum*)
 - American Badger (*Taxidea taxus jeffersonii*)
 - Pallid Bat (*Antrozous pallidus*)
 - Behr's Hairstreak (*Antrozous pallidus*)
 - Rattlesnake (*Crotalus oreganus*)

And the proposed development area at 176 Chadwell Place, Heritage Hills contains the following known values:

- Conservation Ranking, Okanagan
 - High
- Critical Habitat for Federally-listed Species at Risk:
 - American Badger (*Taxidea taxus jeffersonii*)
 - Pallid Bat (*Antrozous pallidus*)
 - Rattlesnake (*Crotalus oreganus*); within 2km of a known den site
 - Lewis's Woodpecker (*Melanerpes lewis*)
- Species and Ecosystems at Risk
 - Antelope-brush/ Needle-and-Thread Grass (red listed in BC)

We have assessed this referral to be a known and potential risk to wildlife, fish or their habitats based on the information available. Based on critical habitat mapping, and the proximity of the first location to Skaha Lake, there exists the potential for impacts to species and ecosystems at risk, depending on the plans for development of park or recreation facilities. It is therefore recommended that prior to any development at either site, a QP conduct site-assessments using the attached QP checklist and evaluate the environmental values present. The QP will also be able to determine the potential for adverse effects to environmental values as a result of any future site alterations, and develop value-specific mitigation measures to avoid or limit adverse effects.

The results of this assessment should be submitted to the undersigned for review, and the submitted checklist must be based on the final development proposal. QPs are encouraged to contact the undersigned directly for further information if necessary. We will notify the referring agency of any outstanding recommendations for consideration in approving the application following review of the Checklist. In rare instances, a more detailed assessment (e.g., environmental impact assessment (EIA)) may be required based on our review of the completed Checklist. It is also the proponent's responsibility to ensure his/her activities are in compliance with all relevant legislation, including the *Water Sustainability Act* and the *Wildlife Act*.

The undersigned may be reached at Dan.Denesiuk@gov.bc.ca or 250-490-8246 if you have any questions or require additional information.

Sincerely,

Dan Denesiuk, MSc, RPBio
Ecosystems Biologist
Thompson Okanagan Region
Penticton, BC

Attachment: Thompson Okanagan Region Qualified Professional Checklist for Environmental Values

Thompson Okanagan Region

Qualified Professional Checklist for Environmental Values

Foreword

The following Qualified Professional Checklist for Environmental Values (the Checklist) is to be submitted by a Qualified Professional (QP) when requested by the approving agency. The Checklist is required to provide additional information to Thompson Okanagan Region (TOR) Ecosystems biologists who have reviewed a proposal and determined that there are known or potential environmental values present that could be impacted by the proposed activities. The Checklist provides a clear summary of the environmental values present at the proposed project location and the potential for direct and/or indirect impacts to those values. TOR Ecosystems biologists require this information to provide inclusive recommendations for a proposed project.

The submitted checklist must be based on the final development proposal. Ecosystems biologists may have discussion with the QP in order to fully understand the values present and/or potential impacts. In rare instances a more detailed environmental impact assessment (EIA) may be required based on the Ecosystems biologists' review of the completed checklist.

Environmental Values provided by TOR Ecosystems Biologists

Known (i.e., mapped) environmental values identified by Ecosystems biologists that should be considered in the completed checklist:	
Note: The completed checklist should include <u>all environmental values</u> that could occur within the proposed project footprint (See Part B #2 below)	

Checklist

Part A: General Project Information

Approving Agency				
Approving Agency File #				
Project Name				
Proponent Name and Contact	Name: E-mail: Telephone:			
Location	Zone	NAD	Easting	Northing

Location Description			
Property Description	PID Number	Legal Description (if no PID #) <input type="checkbox"/> private <input type="checkbox"/> crown	
BEC Subzone and Variant			
Size of Project Footprint (ha)			
Time to Complete Works			
Project Description Included with Application (Yes/No). If no, provide here			

Part B: Biological Assessment Information

The Qualified Professional Confirms that:	Yes, No, or N/A	Explanation
General/Background Information		
1) The proposal conforms to all Federal and Provincial legislation and regulation (e.g., <i>Migratory Birds Convention Act</i> , <i>Wildlife Act</i> , <i>Water Sustainability Act</i>)		
2) The QP has a general knowledge of local environmental values including Species and Ecosystems at Risk (SEAR) in project footprint (e.g., Develop with Care Sec. 5.7, Land and Resource Management Plans, etc.)		
3) A review of known /potential environmental values within the project footprint has occurred (See Table 1 for data sources). Provide a list of all values identified.		
4) Local "fact sheets" and Best Management Practices (BMPs) were used if applicable (See Table 2 for BMP sources)		
Biological Field Assessment		
5) A biological field assessment occurred within the project footprint. Provide dates.		

6) Inventories were conducted following provincial standards (e.g., RISC) to confirm presence/absence of environmental values identified above in #3. List any deviations. Provide list of all values inventoried for.		
7) Have any of the following been identified within or adjacent to (within 200 m) the project footprint.	Federal or Provincial SEAR (list all identified)	
	Habitat Features: (e.g., burrow, den, nest, lek, mineral lick, wildlife tree)	
	Sensitive Ecosystems (SEI Inventory)	
	Rocky Outcrops or Talus Slopes	
	Cottonwood /Aspen Stands	
	Riparian communities (List all communities identified)	
	Streams, lakes, wetlands (including ephemeral wetlands)	
8) SEAR findings have been provided to the WSI and CDC in an appropriate data submission format.		
Impact Assessment		
9) A map is provided showing all environmental values identified in #6 and #7. The map depicts the location of all proposed activities relative to the values.		
10) Pictures are provided of all environmental values found in #6 and #7.		
11) Can direct and/or indirect impacts to environmental values be avoided? Provide brief explanation.		
12) Can direct or indirect impacts to environmental values be minimized, mitigated, or restored on-site? If yes, provide suggested mitigation below		

(Part C). Use hierarchy and procedures from the Environmental Mitigation Policy (See Table 2 for source)		
--	--	--

Part C: Proposed Mitigation

Please provide the measures that in the QP's professional opinion will contribute to the avoidance, mitigation, or restoration of direct and/or indirect impacts from the proposed activities on environmental values identified in Part B. Ecosystems biologists will determine which mitigation measures are provided to the decision maker and may provide additional measures if deemed applicable.

--

Part D: Risk Assessment on Final Submission

This assessment requires the professional judgment of the QP. It requires a complete understanding of the environmental values and the project scope. The risk assessment as determined by the QP will provide valuable environmental information necessary to provide inclusive recommendations to the decision maker.

The Qualified Professional Confirms that:	Yes, No, or N/A	Explanation
In the QP's professional opinion, will the proposed mitigation maintain the integrity of the environmental value?		
Are there residual impacts after avoidance, mitigation, and restoration have been applied as in the Environmental Mitigation Policy? If yes, provide details.		

In the QP's professional opinion, is the mitigation not sufficient or likelihood of success unclear?		
--	--	--

- All information provided in this checklist is to the best of my professional knowledge true and complete.
