Dear Doug

Re: RDOS Complaint -- Sea Can at 4629 Peach Crescent

I understand that the Regional District ("RDOS") has received a complaint regarding the location of the Sea Can on the above noted property.

As the Sea Can is located along the side fence line between our properties, I would like to advise that the position of the Sea Can is not, in any way, affecting my use or enjoyment of my property.

Also, your painting the Sea Can a nice neutral color of "sage green" fits very well into the landscape of the neighbourhood.

Furthermore, the Sea Can should also work as a protective fire wall given the devastating seasonal fires that we have been experiencing lately in the area.

Yours truly

EVA JANE SZENTI^o
