

Proposed Temporary Use:

Our hope for this land is to provide pad rentals for trailers, month to month, semi permanent.

We see a housing shortage in Princeton and consequently many people are going to live in trailers. There is also a shortage of suitable places to park and so we thought we could help at least a few people.

We are only 2 km from town and a short distance to the mine, where a lot of workers have trailers.

So this request is to have a try at this endeavour and see if we are correct in our view on this matter.
