

After trying to sell our previous home for 3 years it sold very fast, in a couple of days. We are now staying in an RV park which has no internet. This makes it very hard to conduct any business. We would like to move our RV to Resolute Road while we continue to develop the lot and build a home. It is hard to get anything done, coordinate contractors, etc. while living somewhere else. My son, who is helping me, lives about an hour from the lot. It would be much easier to meet up and get things done if I lived there. With moving, starting services, etc. we have not yet had time to go to the coast to decide on the home we want to build but I am hoping to do that shortly. We have met quite a few people on the street and all have been very friendly and helpful. They seem glad to have someone there who wants to stay and make a home so the lot won't sit vacant, full of weeds and change hands again. My son and I are both gardeners and I grew up on a farm so we are looking forward to being there to plant and grow things. Anywhere I have ever lived has always been better when I left, even places I rented. This is all new to us; buying vacant land, all the paperwork and time required and we are learning as we go along but for us this is our forever home.
